

Yamaha DTX522K Customizable Electronic Drum Kit with 3-Zone Textured Silicone Snare Pad

Brand: Yamaha
Product Code: DTX522K

Price: \$999.00

Description

The Yamaha Electronic Drum and Cymbal Pad Set for the DTX522K Kit consists of one 3-zone PCY135 13" ride cymbal pad, two 3-zone PCY100 10" cymbal pads for crash and ride, one HH65 hi-hat controller pedal, one 3-zone XP80 8" DTX-pad for snare, one KP65 kick pad, and three TP70 7.5" rubber pads for the toms and floor tom. These components go with a Yamaha RS502 rack and connect to a Yamaha DTX502 drum module to provide you with a versatile electronic drum kit.

Innovations to this series of electronic drum kit include pads designed from laser analysis of live drumming to provide a more natural response, 3-zone choke-able ride and crash cymbals, a three-zone hi-hat, and a 3-zone snare. The cymbals are capable of edge, bow, and cup hits. The snare is capable of head, open rim, and closed rim shots. Additionally, the snare has been redesigned and constructed out of textured small bubble foamed silicone for improved feel and playability.
